UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA

\_\_\_\_\_, Individually and on Behalf of  
All Others Similarly Situated,  
  
Plaintiff,  
  
v.  
  
TRIPLEPOINT VENTURE GROWTH BDC  
CORP., JAMES P. LABE, CHRISTOPHER M.  
MATHIEU, and SAJAL K. SRIVASTAVA,  
  
Defendants.

Case No.

CLASS ACTION

COMPLAINT FOR VIOLATIONS OF THE  
FEDERAL SECURITIES LAWS

DEMAND FOR JURY TRIAL

Plaintiff \_\_\_\_\_ (“Plaintiff”), individually and on behalf of all others similarly  
situated, by Plaintiff’s undersigned attorneys, for Plaintiff’s complaint against Defendants,  
alleges the following based upon personal knowledge as to Plaintiff and Plaintiff’s own acts, and  
information and belief as to all other matters, based upon, *inter alia*, the investigation conducted  
by and through Plaintiff’s attorneys, which included, among other things, a review of the  
Defendants’ public documents, conference calls and announcements made by Defendants,  
United States (“U.S.”) Securities and Exchange Commission (“SEC”) filings, wire and press  
releases published by and regarding TriplePoint Venture Growth BDC Corp. (“TriplePoint” or  
the “Company”), analysts’ reports and advisories about the Company, and information readily

1 obtainable on the Internet. Plaintiff believes that substantial, additional evidentiary support will  
2 exist for the allegations set forth herein after a reasonable opportunity for discovery.

### 3 NATURE OF THE ACTION

4 1. This is a federal securities class action on behalf of a class consisting of all persons  
5 and entities other than Defendants that purchased or otherwise acquired TriplePoint securities  
6 between March 4, 2020 and May 1, 2023, both dates inclusive (the “Class Period”), seeking to  
7 recover damages caused by Defendants’ violations of the federal securities laws and to pursue  
8 remedies under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 (the “Exchange  
9 Act”) and Rule 10b-5 promulgated thereunder, against the Company and certain of its top  
10 officials.  
11

12 2. TriplePoint is a business development company specializing in investments in  
13 venture capital-backed companies at the growth stage. It also provides debt financing to venture  
14 growth space companies, including growth capital loans, secured and customized loans,  
15 equipment financings, revolving loans and direct equity investments.  
16

17 3. Throughout the Class Period, Defendants made materially false and misleading  
18 statements regarding the Company’s business, operations, and prospects. Specifically,  
19 Defendants made false and/or misleading statements and/or failed to disclose that: (i) TriplePoint  
20 had overstated the strength of its various portfolio companies and loan book, as well as the  
21 viability of its overall investment strategy; (ii) the foregoing, once revealed, was likely to have a  
22 material negative impact on the Company’s financial position and/or prospects; and (iii) as a  
23 result, the Company’s public statements were materially false and misleading at all relevant  
24 times.  
25

26 4. On May 2, 2023, the Bear Cave released a report titled “Problems at TriplePoint  
27 Venture Growth BDC (TPVG)” (the “Bear Cave Report”). The Bear Cave Report highlighted  
28

1 significant issues at TriplePoint, alleging that “TriplePoint is encumbered by high fees, weak  
2 management, and a weaker loan book saddled by portfolio company bankruptcies and upside-  
3 down startups,” and asserting that “the Bear Cave believes TriplePoint’s equity may be severely  
4 impaired, if it has any value at all.”

5  
6 5. On this news, TriplePoint’s stock price fell \$1.19 per share, or 9.98%, over the  
7 following two trading sessions, to close at \$10.73 per share on May 3, 2023.

8 6. As a result of Defendants’ wrongful acts and omissions, and the precipitous  
9 decline in the market value of the Company’s securities, Plaintiff and other Class members have  
10 suffered significant losses and damages.

11 **JURISDICTION AND VENUE**

12 7. The claims asserted herein arise under and pursuant to Sections 10(b) and 20(a)  
13 of the Exchange Act (15 U.S.C. §§ 78j(b) and 78t(a)) and Rule 10b-5 promulgated thereunder by  
14 the SEC (17 C.F.R. § 240.10b-5).

15 8. This Court has jurisdiction over the subject matter of this action pursuant to 28  
16 U.S.C. § 1331 and Section 27 of the Exchange Act.

17 9. Venue is proper in this Judicial District pursuant to Section 27 of the Exchange  
18 Act (15 U.S.C. § 78aa) and 28 U.S.C. § 1391(b). TriplePoint is headquartered in this Judicial  
19 District, Defendants conduct business in this Judicial District, and a significant portion of  
20 Defendants’ activities took place within this Judicial District.

21 10. In connection with the acts alleged in this complaint, Defendants, directly or  
22 indirectly, used the means and instrumentalities of interstate commerce, including, but not limited  
23 to, the mails, interstate telephone communications, and the facilities of the national securities  
24 markets.

**PARTIES**

1  
2           11. Plaintiff, as set forth in the attached Certification, acquired TriplePoint securities  
3 at artificially inflated prices during the Class Period and was damaged upon the revelation of the  
4 alleged corrective disclosures.

5           12. Defendant TriplePoint is a Maryland corporation with principal executive offices  
6 located at 2755 Sand Hill Road, Suite 150, Menlo Park, California 94025. TriplePoint’s common  
7 stock trades in an efficient market on the New York Stock Exchange (“NYSE”) under the ticker  
8 symbol “TPVG”.

9  
10           13. Defendant James P. Labe (“Labe”) has served as TriplePoint’s Chairman and  
11 Chief Executive Officer at all relevant times.

12           14. Defendant Christopher M. Mathieu (“Mathieu”) has served as TriplePoint’s Chief  
13 Financial Officer at all relevant times.

14  
15           15. Defendant Sajal K. Srivastava (“Srivastava”) has served as TriplePoint’s  
16 President, Chief Investment Officer, Secretary, Treasurer, and Director at all relevant times.

17           16. Defendants Labe, Mathieu, and Srivastava are sometimes referred to herein  
18 collectively as the “Individual Defendants.”

19           17. The Individual Defendants possessed the power and authority to control the  
20 contents of TriplePoint’s SEC filings, press releases, and other market communications. The  
21 Individual Defendants were provided with copies of TriplePoint’s SEC filings and press releases  
22 alleged herein to be misleading prior to or shortly after their issuance and had the ability and  
23 opportunity to prevent their issuance or to cause them to be corrected. Because of their positions  
24 with TriplePoint, and their access to material information available to them but not to the public,  
25 the Individual Defendants knew that the adverse facts specified herein had not been disclosed to  
26 and were being concealed from the public, and that the positive representations being made were  
27  
28

1 then materially false and misleading. The Individual Defendants are liable for the false  
2 statements and omissions pleaded herein.

### 3 **SUBSTANTIVE ALLEGATIONS**

#### 4 **Background**

5 18. TriplePoint is a business development company specializing in investments in  
6 venture capital-backed companies at the growth stage. It also provides debt financing to venture  
7 growth space companies, including growth capital loans, secured and customized loans,  
8 equipment financings, revolving loans and direct equity investments.  
9

#### 10 **Materially False and Misleading Statements Issued During the Class Period**

11 19. The Class Period begins on March 4, 2020, when TriplePoint issued a press  
12 release announcing the Company's Q4 and full year 2019 results. The press release quoted  
13 Defendants Labe and Srivastava, stating, in relevant part:  
14

15 "We are pleased with the strong portfolio growth and overall pipeline activity  
16 during 2019, as we experienced strong deal flow from long-standing relationships  
17 with our select group of venture capital investors," said [Defendant] Labe[], adding  
18 "We are pleased to report a record in annual originations and overall portfolio size  
19 as we continue to focus on quality portfolio growth and diversification."

20 "We achieved our target leverage ratio during the quarter and strengthened our  
21 liquidity by completing an accretive common stock equity offering right after the  
22 end of the year," said [Defendant] Srivastava[.] "This additional liquidity along  
23 with our plans to take advantage of our investment grade credit rating to increase  
24 our leverage will support the funding of our high-quality pipeline of venture growth  
25 stage opportunities."

26 20. That same day, TriplePoint filed an Annual Report on Form 10-K with the SEC,  
27 reporting the Company's financial and operating results for the year ended December 31, 2019  
28 (the "2019 10-K"). In providing an overview of the Company's business, the 2019 10-K stated,  
in relevant part:

We originate and invest primarily in loans that have a secured collateral  
position and are generally used by venture growth stage companies to finance their  
continued expansion and growth, equipment financings and, on a select basis,

1 revolving loans, together with, in many cases, attached equity “kickers” in the form  
2 of warrant investments, and direct equity investments. We underwrite our  
3 investments seeking an unlevered yield-to-maturity on our growth capital loans and  
4 equipment financings generally ranging from 10% to 18% and on our revolving  
5 loans generally ranging from 1% above the applicable prime rate to 10%, in each  
6 case, with potential for higher returns in the event we are able to exercise warrant  
7 investments and realize gains or sell our related equity investments at a profit. We  
8 also generally underwrite our secured loans seeking a loan-to-enterprise value of  
9 less than 25%.

10 We make investments that our Adviser’s senior investment team believes  
11 have a low probability of loss due to our expertise and the revenue profile, product  
12 validation, customer commitments, intellectual property, financial condition and  
13 enterprise value of the potential opportunity. We believe these investments provide  
14 us with a stable, fixed-income revenue stream along with the potential for equity-  
15 related gains on a risk-adjusted basis. We believe that the venture growth stage debt  
16 market presents a compelling growth channel for us because it has high barriers to  
17 entry and is underserved by both traditional lenders and existing debt financing  
18 providers to venture capital-backed companies given the brand, reputation and  
19 market acceptance, industry relationships, venture lending and leasing expertise,  
20 specialized skills, track record, and other factors required to lend to companies  
21 backed by leading venture capital investors. Additionally, we believe our  
22 investments are distinct compared with the investments made by more traditional  
23 lenders because our investments provide us the ability to invest alongside leading  
24 venture capital investors in companies focused in technology, life sciences and  
25 other high growth industries. We also believe that our investments are distinct  
26 compared to the investments made by existing debt financing providers to venture  
27 capital backed companies given our primary focus on venture growth stage  
28 companies backed by [TriplePoint Capital LLC’s (“TPC”)] select group of leading  
venture capital investors.

We believe we are able to successfully structure these investments as a  
result of the strong value proposition our secured loans offer to both borrowers and  
their venture capital investors. Our secured loans provide venture growth stage  
companies with an opportunity to:

- diversify their funding sources;
- augment their existing capital base and extend operating capital;
- scale business operations and accelerate growth;
- fund expenses ahead of anticipated corresponding revenue;
- expand product offerings through internal development or acquisitions;
- lower the upfront costs of capital expenditures;

- build and/or expand their leadership positions within their respective markets;
- accelerate and/or smooth out the timing of cash collections; and
- delay and/or postpone the need for their next round of equity financing, in each case, extending their cash available to fund operations without incurring substantial equity dilution during a critical time in their lifecycle when they are meaningfully building enterprise value.

21. Further, in discussing the Company's investment strategy, the 2019 10-K stated, in relevant part:

***Target Venture Growth Stage Companies***

We primarily target investment opportunities in venture growth stage companies backed by venture capital investors. However, having backing from a venture capital investor does not guarantee financing from us. Prospective borrowers must further qualify based on our Adviser's rigorous and established investment selection and underwriting criteria and generally have many of the following characteristics:

- financing from a member of TPC's select group of leading venture capital investors with whom TPC has an established history of providing secured loans alongside equity investments made by these venture capital investors;
- focused in technology, life sciences or other high growth industries and targeting an industry segment with a large and/or growing market opportunity;
- completion of their primary technology and product development;
- meaningful customer sales, commitments or orders and have generated or we believe are reasonably expected to generate within the current fiscal year or on an annualized run rate at least \$20 million in revenues and a strong outlook for continued and/or potentially rapid revenue growth;
- a leadership position in its market (or the potential to establish a leadership position) with potential and/or defensible barriers to entry;
- an experienced and relatively complete senior management team with a successful track record;
- support from existing venture capital investors in the form of meaningful invested equity capital relative to our investment amount and/or reserved capital or willingness to invest additional capital as needed;

- strong likelihood of raising additional equity capital or achieving an exit in the form of an initial public offering or sale based on our determination;
- differentiated products, unique technology, proprietary intellectual property, and/or positive clinical results that may have intrinsic value on a stand-alone and/or liquidation basis;
- meaningful enterprise value relative to the size of our investment as indicated by a recent equity round valuation or as determined by a third-party with, in our Adviser’s senior investment team’s opinion, the potential for upside;
- a balanced current financial condition typically with 12 months or more of operating cash runway based on its projected cash burn and/or a path to profitability typically over a three to five year period from the date of our investment; and
- upcoming strategic and potential enterprise valuation-accreting business milestones that our investment can help provide operating cash runway for the company to achieve.

For many venture capital-backed companies, we believe that the venture growth stage is generally the point in their lifecycle at which they begin operational and financial preparations for a liquidity event, such as an initial public offering or private sale. We believe these investments provide us with a stable, fixed-income revenue stream along with the potential for equity-related gains on a risk-adjusted basis. We invest opportunistically in venture capital-backed companies at other lifecycle stages of development when our Adviser’s senior investment team believes that they present an attractive investment opportunity for us.

\*\*\*

### ***Generate Equity Upside over Time through Warrant and Equity Investments***

In connection with our secured loans, we generally receive warrant investments to acquire preferred or common stock in a venture growth stage company with an exercise price typically equal to the same price per share paid by the company’s venture capital investors in its last round of equity financing or a recent valuation of the venture growth stage company as determined by a third-party. Our warrant investment coverage generally ranges from 2% to 10% of the committed loan amount. The warrant investments we obtain typically include a “cashless exercise” provision to allow us to exercise these rights without any additional cash investment. We also generally receive the opportunity to invest equity directly in our venture growth stage companies. We believe that making equity investments and receiving warrant investments in venture growth stage companies with exit events on the horizon, such as an initial public offering or private sale, increases the likelihood of equity appreciation and enhanced

1 investment returns. As a venture growth stage company's enterprise value changes  
2 we expect to recognize unrealized gains or losses from the fair value changes in our  
3 warrant and equity investments, and in conjunction with either a sale of the  
4 company or in connection with or following an initial public offering, we expect to  
5 achieve additional investment returns and realized gains from the exercise of these  
6 warrant investments and the sale of the underlying stock.

#### 7 ***Utilize a Disciplined Investment Process***

8 Our Adviser's senior investment team leverages the more than 50 years of  
9 combined experience and expertise of [Defendant] Labe and [Defendant]  
10 Srivastava, TPC's co-founders, and the track record developed by them at TPC  
11 since its inception for reviewing prospective borrowers and potential financings,  
12 structuring those financings and subsequently monitoring those that are pursued  
13 and made, through which our Adviser's senior investment team has succeeded in  
14 making profitable investments and minimizing credit losses. Additionally, we  
15 believe that the credit performance of our venture growth stage companies and the  
16 returns associated with lending to these companies are enhanced through our  
17 Adviser's focus on originating investments primarily backed by TPC's select group  
18 of leading venture capital investors and having an understanding of their outlook  
19 and/or support of our prospective and existing borrowers.

#### 20 ***Employ Active Portfolio Management Processes***

21 Our Adviser utilizes an extensive internal credit tracking and monitoring  
22 approach to regularly follow a borrower's actual financial performance and  
23 achievement of business-related milestones to ensure that the internal risk rating  
24 assigned to each borrower is appropriate. This process has been refined and  
25 validated by Messrs. Labe and Srivastava, and the track record developed by TPC  
26 since its inception and is based, in part, on its expertise, familiarity and deep  
27 understanding of the risk associated with investing in various stages of a venture  
28 capital-backed company's lifespan. The analysis focuses on both quantitative  
metrics, such as cash balance and cash burn, and our Adviser's qualitative  
assessment in various areas, such as the outlook for the borrower's industry  
segment, progress of product development, overall adherence to the business plan,  
financial condition, future growth potential and ability to raise additional equity  
capital. Our Adviser maintains dialogue and contact with our borrowers'  
management teams to discuss, among other topics, business progress, cash flow,  
financial condition and capital structure matters. Our Adviser also typically  
engages in dialogue with the venture capital investors in our borrowers to  
understand and assess the borrower's progress and development and the venture  
capital investor's outlook and/or level of support for our borrower and in  
conjunction with the Four Rs, our core investment philosophy, determines the  
appropriate course of action with respect to investments in borrowers on our Credit  
Watch List.

1           22. Appended to the 2019 10-K as exhibits were signed certifications pursuant to the  
2 Sarbanes-Oxley Act of 2002 (“SOX”) by Defendants Labe and Mathieu, attesting that “[t]he  
3 information contained in the [2019 10-K] fairly presents, in all material respects, the financial  
4 condition and results of operations of [TriplePoint].”

5           23. Also on March 4, 2020, TriplePoint hosted an earnings call with investors and  
6 analysts to discuss the Company’s Q4 2019 results (the “Q4 2019 Earnings Call”). During the  
7 scripted portion of the Q4 2019 Earnings Call, Defendant Labe stated, in relevant part:  
8

9           Our sponsor, TriplePoint Capital, was founded more than 15 years ago by the senior  
10 team and is a leading global financing provider to venture capital-backed  
11 companies across all stages of their development. We believe our direct  
12 relationships, both with our leading select venture capital investors and with our  
13 companies, provides us with an edge in the marketplace.

14                                 \*\*\*

15           While we’re proud of TPVG’s performance last year and the previous six years,  
16 it’s only the beginning. We plan to build upon the success in the years to come and,  
17 as I mentioned, we’re already entering 2020 with the largest originations pipeline  
18 in our sponsor’s history. That’s important because TPVG’s portfolio is driven by  
19 the originations pipeline, among other factors, which helps drive earnings growth.

20           We will stay on our path to achieve our 2020 goals and objectives, while this market  
21 demand is strong and deal flow continues to increase. We can continue this  
22 performance, while maintaining our underwriting standards, pricing and investment  
23 strategy because of the strength and reputation of the TriplePoint global platform.

24           24. On May 6, 2020, TriplePoint issued a press release announcing the Company’s  
25 Q1 2020 results. The press release quoted Defendants Labe and Srivastava, stating, in relevant  
26 part:  
27

28           “We are grateful for the support and collaboration of our employees, our portfolio  
companies, our select group of venture capital firms, and other members of the  
venture community during the COVID-19 pandemic,” said [Defendant] Labe[,]  
adding, “We believe that the strength of the venture capital ecosystem and our  
venture lending business, as well as the resilience of our portfolio companies, are  
never more evident than when they are tested. Even in a time of global crisis, we  
are able to build on that foundation and work toward a bright future for venture  
growth stage financing.”

1 “Our strong and diversified balance sheet, supported by proactive capital-raising  
2 here in 2020, puts us in a position of strength in this challenging environment,” said  
3 [Defendant] Srivastava[.] “We will continue to deploy our capital and grow our  
4 investment portfolio in a disciplined fashion to maximize returns to our  
5 shareholders.”

6 25. That same day, TriplePoint hosted an earnings call with investors and analysts to  
7 discuss the Company’s Q1 2020 results (the “Q1 2020 Earnings Call”). During the scripted  
8 portion of the Q1 2020 Earnings Call, Defendant Labe stated, in relevant part:

9 Our consistent results in Q1 demonstrate the value of our expertise and execution  
10 of this playbook. During the quarter, we grew the portfolio to a record \$713 million  
11 at fair value. We continued to deliver stable portfolio yields. We also generated NII  
12 in excess of our dividend, not only covering the dividend, but then some. We were  
13 also very proactive in the capital markets last quarter, raising both equity and debt  
14 capital, resulting in strength in liquidity for the remainder of this year.

15 \*\*\*

16 Our select venture capital funds have raised more than \$50 billion since 2018. \$30  
17 billion of this was a loan raised last year and here in 2020. A number of them closed  
18 new multibillion-dollar funds in the first several months of 2020 alone. We believe  
19 our approach of lending to companies, backed by our select venture capital funds,  
20 provides an additional layer of strength. These funds have historically  
21 outperformed not only during the bull market periods, but also during bear markets,  
22 and that is one of the many reasons why TriplePoint chooses to partner with their  
23 portfolio companies versus those of all the other venture capital funds.

24 26. On August 5, 2020, TriplePoint issued a press release announcing the Company’s  
25 Q2 2020 results. The press release quoted Defendants Labe and Srivastava, stating, in relevant  
26 part:

27 “Our second quarter results demonstrate our unique venture growth stage lending  
28 approach, the experience of our team, and the high quality of our portfolio  
companies,” said [Defendant] Labe[,], adding, “While there remains uncertainty in  
the global economic environment, we will continue to focus on our investment  
portfolio and to deploy our capital in a disciplined fashion to support venture  
growth stage companies.”

“We are pleased to realize gains from the sale of a substantial portion of our warrant  
and equity investments associated with the loan we committed to CrowdStrike, Inc.  
in 2016,” said [Defendant] Srivastava[.] “These gains highlight the potential for  
additional returns and net asset value accretion from our investments over the long-  
term.”

1  
2 27. That same day, TriplePoint hosted an earnings call with investors and analysts to  
3 discuss the Company's Q2 2020 results (the "Q2 2020 Earnings Call"). During the scripted  
4 portion of the Q2 2020 Earnings Call, Defendant Labe stated, in relevant part:

5 For this past quarter, we continue to follow the playbook that we all outlined in the  
6 first quarter. Although this was a light quarter by volume, it reflected our cautious  
7 approach and our goal of maintaining stability in this market. We believe this was  
8 the right approach given uncertain times. Our business as you can see held up well  
9 during the quarter as we continued to weather through this economic environment.

10 For the quarter, our net investment income, or NII, was more than \$11.5 million or  
11 \$0.38 per share, which more than covered our dividend, and we also achieved the  
12 weighted average annualized portfolio yield of 13.7% for the quarter. Most  
13 significantly, we benefited during the quarter from a powerful component to our  
14 returns, one that is part of our differentiated venture lending business model and  
15 attests to the quality of the select venture capital-backed companies in which we  
16 invest.

17 This is the equity component of our lending transactions. Sajal likes to call it the  
18 secret sauce. These are typically stock warrant positions, equity investments or even  
19 a combination of both that we negotiate as part of our venture lending transactions.

20 28. On November 5, 2020, TriplePoint issued a press release announcing the  
21 Company's Q3 2020 results. The press release quoted Defendants Labe and Srivastava, stating,  
22 in relevant part:

23 "We had another quarter of strong performance, reflecting the quality of our  
24 portfolio and our disciplined approach," said [Defendant] Labe[], adding, "We  
25 continue to see growing demand for debt from venture growth stage companies and  
26 anticipate a strong finish for 2020, as well as robust momentum going into 2021."

27 "We are pleased to see the levels of exit, liquidity and prepayment events within  
28 our portfolio," said [Defendant] Srivastava[.] "These events generate exceptional  
returns on our investments and give us the flexibility to efficiently redeploy our  
capital."

29 29. That same day, TriplePoint hosted an earnings call with investors and analysts to  
30 discuss the Company's Q3 2020 results (the "Q3 2020 Earnings Call"). During the scripted  
31 portion of the Q3 2020 Earnings Call, Defendant Labe stated, in relevant part:

1 Many of our portfolio companies operate in the virtual and digital technology world  
2 today, and TPVG is well-positioned to take advantage of this ecosystem as new  
3 venture capital investments remain focused in it.

4 \*\*\*

5 Our select group of leading venture capital investors and the funds with whom we  
6 have had these long-standing profitable relationships have also raised more than  
7 \$50 billion since 2018, of which \$35 million of that alone was raised last year and  
8 this year-to-date, including several of our select funds, which closed new multi-  
9 billion dollar funds here in 2020. Believe me, this provides plenty of dry powder to  
10 support our existing portfolio companies, as well as for all this new and growing  
11 investment activity.

12 \*\*\*

13 Turning to the quarter and to sum up our solid performance of this past quarter. We  
14 over earned our distribution to shareholders, we decreased our leverage, we  
15 increased our net asset value, we improved our liquidity position, we experienced  
16 no new credit downgrades and we grew the levels of signed term sheets, debt  
17 investment funding, commitments, and also the size of our overall pipeline. Our  
18 liquidity remains strong and our pipeline is growing and all of this adds up to what  
19 we believe is the foundation for a strong year and momentum going into 2021.

20 30. On March 3, 2021, TriplePoint issued a press release announcing the Company's  
21 Q4 and full year 2020 results. The press release quoted Defendants Labe and Srivastava, stating,  
22 in relevant part:

23 "TPVG's strong performance in a challenging year underscores the strength of our  
24 platform, the quality and resiliency of our portfolio and the value of our warrant  
25 and equity investments," said [Defendant] Labe[.] "We are pleased to have  
26 generated NII in excess of our distributions for the fourth year in a row and, based  
27 on last year's substantial capital gains, paid our third special distribution since  
28 going public while still maintaining substantial spillover income."

"We have entered 2021 well positioned to capitalize on the robust venture capital  
market and strong demand for our debt financing from venture growth stage  
companies," said [Defendant] Srivastava[.] "We expect to utilize our strong  
liquidity position to grow our portfolio in a highly disciplined fashion while  
delivering attractive returns to our stakeholders."

31. That same day, TriplePoint filed an Annual Report on Form 10-K with the SEC,  
reporting the Company's financial and operating results for the year ended December 31, 2020

1 (the “2020 10-K”). The 2020 10-K contained substantively similar discussions of the Company’s  
2 business overview and investment strategy as discussed, *supra*, in ¶¶ 20-21.

3 32. Appended to the 2020 10-K as exhibits were signed certifications pursuant to  
4 SOX by Defendants Labe and Mathieu, attesting that “[t]he information contained in the [2020  
5 10-K] fairly presents, in all material respects, the financial condition and results of operations of  
6 [TriplePoint].”  
7

8 33. Also on March 3, 2021, TriplePoint hosted an earnings call with investors and  
9 analysts to discuss the Company’s Q4 2020 results (the “Q4 2020 Earnings Call”). During the  
10 scripted portion of the Q4 2020 Earnings Call, Defendant Labe stated, in relevant part:

11 Before we review the quarter and talk about 2020, I’d like to mention that the  
12 TriplePoint team is off to the races in a big way in 2021 already. This past Monday,  
13 we closed \$200 million in our private notes offering; in January, we upsized our  
14 revolving credit facilities and we continue to see liquidity events in the portfolio  
15 this year. The pipeline and deals under evaluation are also continuing to grow  
16 significantly and our strategic financing expansion plans are underway. This is the  
17 power of the TriplePoint platform at work and we are demonstrating our experience  
18 and leadership in the venture lending market bar none.

19 The great start to this year is all part of the continuing story coming off a very  
20 successful 2020. The strong results in 2020, in fact, amid the global pandemic,  
21 highlights further our unique TriplePoint Venture lending platform, the quality and  
22 resilience of our portfolio, and our long-standing relationships with our select  
23 venture capital investors.

24 We’re pleased with the performance of the portfolio and the significant progress  
25 we have made advancing our playbook quarter-by-quarter for all of last year,  
26 including deploying capital strategically and taking steps to position TPVG for  
27 growth.

28 \*\*\*

During the year, our portfolio continued to generate strong yields and we continued  
our focus to diversify it and further strengthen its credit quality.

34. On May 5, 2021, TriplePoint issued a press release announcing the Company’s  
Q1 2021 results. The press release quoted Defendants Labe and Srivastava, stating, in relevant  
part:

1 “The venture capital ecosystem demonstrated its resilience during 2020 and is off  
2 to a robust start in 2021,” said [Defendant] Labe[.] “The strong investment activity  
3 environment enhances the outlook and credit quality of our existing portfolio  
4 companies in addition to driving demand for debt financings from new companies,  
5 enabling us to achieve our portfolio growth goals over the course of the year.”

6 “During the first quarter, we executed on our playbook to diversify our funding  
7 sources, lower our cost of capital, and strengthen our funding capabilities,” said  
8 [Defendant] Srivastava[.] “Upsizing our credit facility and completing our second  
9 investment grade notes offering will enable us to meet the increasing demand from  
10 venture growth stage companies and prudently grow our portfolio in 2021.”

11 35. That same day, TriplePoint hosted an earnings call with investors and analysts to  
12 discuss the Company’s Q1 2021 results (the “Q1 2021 Earnings Call”). During the scripted  
13 portion of the Q1 2021 Earnings Call, Defendant Labe stated, in relevant part:

14 Over the course of the year, our focus remains on continuing to execute on our  
15 playbook and the work we’re doing now will translate to a very busy second half  
16 of the year, given this pick-up in venture investment venture fundraising and our  
17 growing pipeline.

18 \*\*\*

19 Given our experience in the field in our franchise, TPG has never been better  
20 positioned to capitalize on today’s market and flip for what we think of as riding  
21 the wave. When you have substantial liquidity lined up and combine it with long-  
22 standing venture capital relationships and a strong pipeline, that’s the formula for  
23 driving outsized yield. We need to position ourselves to take advantage of the  
24 strong demand we are seeing from venture growth stage companies.

25 \*\*\*

26 We remain in a strong position to generate NII or net investment income in excess  
27 of our distribution over the long term. As we always have in fact, over the last four  
28 years and cumulatively, since our IPO, we have over earned our distribution. We’ve  
also paid three special distributions, including one that we just made last week.  
Additionally, other trends that we will benefit from is the acceleration of exit events  
and their income contracts during the first quarter 50 venture capital backed  
companies for publicly listed, including our portfolio companies, Hims and View,  
which completed their SPAC mergers during the first quarter. There’s currently two  
additional TPVG portfolio companies that are in the process of going public via a  
SPAC and a number of others in very active discussions.

Our portfolio Companies remain strong and we are pleased how they have adapted  
to the new environment, putting 2020 behind them and positioning themselves to  
excel in the emerging post-COVID world. Market conditions remain very favorable

1 for us. For the first quarter, a record 52 billion of capital was deployed across almost  
2 1300 deals in the late stage venture market. This is the segment which TPVG  
operates in and targets.

3 36. On August 4, 2021, TriplePoint issued a press release announcing the Company's  
4 Q2 2021 results. The press release quoted Defendants Labe and Srivastava, stating, in relevant  
5 part:

6  
7 "We are pleased to have increased signed terms sheets by more than 30% over the  
8 previous quarter, increased our new debt commitments and funded high quality  
9 companies," said [Defendant] Labe[.] "We remain well positioned to capitalize on  
the strong demand for debt at venture growth stage companies and draw on our  
substantial liquidity to grow our investment portfolio."

10 "The prospects for our portfolio companies continue to be promising," said  
11 [Defendant] Srivastava[.] "Based on their continued fundraising and potential exit  
12 activity, we believe our equity and warrant investments are in a favorable position  
13 to increasingly generate capital gains for shareholders and contribute to our net  
asset value growth."

14 37. That same day, TriplePoint hosted an earnings call with investors and analysts to  
15 discuss the Company's Q2 2021 results (the "Q2 2021 Earnings Call"). During the scripted  
16 portion of the Q2 2021 Earnings Call, Defendant Labe stated, in relevant part:

17 We made strong progress during this past quarter from exceeding our funding target  
18 to maintaining high credit quality and to increasing our portfolio yield return on  
19 average equity and net asset value or NAV. The most notable progress is a  
20 continued rise we are seeing in signed term sheets, which was one of the highest  
21 quarterly totals in TPVG's history. Additionally, our pipeline increased 50% over  
22 last quarter and has more than doubled since a year ago. We have substantial  
liquidity to meet this increased demand and we're on course to achieve the growth  
targets we outlined for the second half of the year and drive consistent long-term  
growth of investment income in net asset value.

23 \*\*\*

24 For that reason, we focus on high-quality companies that will enable us to generate  
25 strong returns from our debt investments as well as from our equity and warrant  
26 positions. In the second quarter, we took important steps to meet this critical  
27 objective. While we underearned our distribution for the quarter, the trends in our  
28 portfolio remains strong in terms of signed term sheets, increased fundings, and  
high credit quality. We expect to continue to generate NII in excess of our  
distribution over the long term as we have cumulatively done so since our IPO.  
We're particularly excited about TPVG's promising and deep portfolio, all created

1 by our model of working with a select group of leading venture capital investors  
2 and having a targeted focus on venture growth stage companies. This has provided  
3 a solid foundation for us to execute against our plan.

4 \*\*\*

5 For many companies planning to raise equity in today's environment, debt enables  
6 them to accelerate growth in order to achieve higher valuations when they raise. In  
7 fact, we're now seeing demand is back again from those companies that raised large  
8 equity rounds last year, some of whom actually paid off their lines with us when  
9 they closed a round, and now they're seeking debt again. The volatility in the pipe  
10 market of recent for SPACs has also created a number of situations where  
11 companies are now expecting the process to take longer and they're raising more  
12 equity and debt with us to continue to remain private. Today's market is ripe for  
13 TriplePoint's venture lending strategy, and our portfolio is poised to continue to  
14 reap these rewards. As we've highlighted in the past, a fundamental strength is our  
15 differentiated platform. TriplePoint Capital will continue to benefit from these  
16 sustainable tailwinds of the innovation economy. This is led by our deep  
17 relationships with founders and entrepreneurs as well as leading venture capital  
18 firms.

19 38. On November 3, 2021, TriplePoint issued a press release announcing the  
20 Company's Q3 2021 results. The press release quoted Defendants Labe and Srivastava, stating,  
21 in relevant part:

22 "During the quarter, we executed against our playbook and meaningfully grew our  
23 investments while continuing to diversify our portfolio of high-quality, venture  
24 growth stage companies backed by select venture capital investors," said  
25 [Defendant] Labe[.] "Our momentum, pipeline, and liquidity remain strong, and we  
26 are well positioned to continue to grow the portfolio in a disciplined manner."

27 "The third quarter demonstrated the quality and upside potential built into our  
28 portfolio," said [Defendant Srivastava[.] "We continued to generate sizeable gains  
from our equity and warrant investments, resulting in substantial NAV accretion,  
while achieving one of our highest quarterly credit quality rankings of our debt  
investment portfolio."

29 39. That same day, TriplePoint hosted an earnings call with investors and analysts to  
30 discuss the Company's Q3 2021 results (the "Q3 2021 Earnings Call"). During the scripted  
31 portion of the Q3 2021 Earnings Call, Defendant Labe stated, in relevant part:

32 The quarter was one of continued growth in execution of the 2021 playbook we  
33 have outlined on our earnings calls. This year has unfolded as expected, on track  
34 for a stronger second half and a promising and exciting outlook for 2022. The

1 quarter's performance continues to demonstrate the potential of TPVG's  
2 differentiated venture lending model and investment strategy. We are encouraged  
3 by the quarterly trends in our playbook that started earlier this year, and our  
4 expectation is to continue on this path in the quarters ahead.

5 Notably, we grew the investment portfolio to a record \$767 million, and we  
6 significantly increased net asset value, achieving the highest quarterly NAV per  
7 share accretion since our IPO. Our NAV, which reflects \$0.10 per share special  
8 dividend we paid last year is up \$0.58 from the December 31, 2019, pre-pandemic  
9 level and \$1.07 since the start of the pandemic in Q1 2020. Signed term sheets in  
10 the quarter at TPC for venture growth stage companies increased by more than 20%  
11 over the previous quarter, representing the second highest level since TPVG's IPO.  
12 This is the sixth consecutive quarter of increased signed term sheets. This level of  
13 origination bodes well for future debt commitments in the fourth quarter and  
14 beyond.

15 \*\*\*

16 The increase in NAV this quarter shows the power of our model with a considerable  
17 upside potential built into the portfolio from the warrants and equity kickers that  
18 we negotiate as part of our debt transactions, demonstrating TPVG's strong  
19 potential to create long-term shareholder value. Among the most significant  
20 contributors to increasing NAV is the continued equity fundraising rounds closed  
21 by our portfolio companies, which increases the overall enterprise for value of our  
22 investments.

23 40. On March 2, 2022, TriplePoint issued a press release announcing the Company's  
24 Q4 and full year 2021 results. The press release quoted Defendants Labe and Srivastava, stating,  
25 in relevant part:

26 "We are pleased with our strong finish for the year as we executed on our 2021  
27 playbook," said [Defendant] Labe[.] "We capitalized on the thriving venture capital  
28 market in 2021 to continue to grow our investment portfolio in a disciplined  
manner, culminating in a fourth quarter in which we over-earned our dividend and  
achieved our second highest level of quarterly fundings since our IPO."

"Our performance in 2021 demonstrated the value potential associated with our  
warrant and equity investments and the overall quality of our portfolio, resulting in  
a substantial increase in net asset value," said [Defendant] Srivastava[.] "With the  
completion this week of our third investment grade debt offering to date we are  
well positioned to continue to invest in leading venture growth stage companies."

41. That same day, TriplePoint filed an Annual Report on Form 10-K with the SEC,  
reporting the Company's financial and operating results for the year ended December 31, 2021

1 (the “2021 10-K”). The 2021 10-K contained substantively similar discussions of the Company’s  
2 business overview and investment strategy as discussed, *supra*, in ¶¶ 20-21.

3 42. Appended to the 2021 10-K as exhibits were signed certifications pursuant to  
4 SOX by Defendants Labe and Mathieu, attesting that “[t]he information contained in the [2021  
5 10-K] fairly presents, in all material respects, the financial condition and results of operations of  
6 [TriplePoint].”

7  
8 43. Also on March 2, 2022, TriplePoint hosted an earnings call with investors and  
9 analysts to discuss the Company’s Q4 2021 results (the “Q4 2021 Earnings Call”). During the  
10 scripted portion of the Q4 2021 Earnings Call, Defendant Labe stated, in relevant part:

11 For the fourth quarter, we grew the investment portfolio to a record \$865 million  
12 and achieved a weighted average portfolio yield of almost 15%. Our fundings  
13 exceeded our target range and represented the second-highest funding quarter since  
14 our IPO. In the quarter, we more than doubled our debt financing commitments  
15 over the previous quarter, achieved leverage within our target range and continued  
16 to diversify the portfolio. Our portfolio of high-quality, technology-driven venture  
17 growth stage companies also remain very healthy with strong credit quality. The  
18 quarter was topped off by delivering net investment income of \$0.42 per share,  
19 over-earning our dividend.

20 Our net asset value or NAV also grew on a quarterly as well as a yearly basis. The  
21 NAV accretion during the year continued to benefit from the equity investments  
22 and warrant kickers that we negotiate as part of our debt commitments,  
23 demonstrating the strong upside potential of the portfolio, as well as reflecting the  
24 many attractive rounds at our portfolio companies closed during the year.

25 As we originate new loans, we continue to pick up additional equity and warrant  
26 kickers that we believe will further drive capital gains upside in our portfolio and  
27 create long-term shareholder value.

28 44. On May 4, 2022, TriplePoint issued a press release announcing the Company’s  
Q1 2022 results. The press release quoted Defendants Labe and Srivastava, stating, in relevant  
part:

“We are off to a great start in 2022, over-earning our quarterly dividend, hitting our  
funding target, and increasing our portfolio yield, while maintaining high credit  
quality,” said [Defendant] Labe[.] “The venture capital ecosystem remains active,

1 our pipeline is growing, and we are experiencing robust demand for our debt  
2 financing solutions from high-quality venture growth stage companies.”

3 “Our portfolio companies continue to demonstrate the value of their innovative  
4 products and services as well as the strength of their business models, as evidenced  
5 by their ability to close attractive equity fundraising rounds and achieve exit  
6 events,” said [Defendant] Srivastava[.] “We look forward to taking advantage of  
7 our balance sheet strength to prudently grow our portfolio and continue to deliver  
8 attractive returns to shareholders.”

9 45. That same day, TriplePoint hosted an earnings call with investors and analysts to  
10 discuss the Company’s Q1 2022 results (the “Q1 2022 Earnings Call”). During the scripted  
11 portion of the Q1 2022 Earnings Call, Defendant Labe stated, in relevant part:

12 During a time when demand remained strong, we continue to maintain our proven  
13 and disciplined approach. We work with a select group of leading venture capital  
14 investors and with what we believe to be the highest quality venture growth stage  
15 deals. This strategy hasn’t changed since our IPO more than eight years ago. We  
16 believe our time tested approach has been proven throughout numerous cycles. It  
17 positions us well to further deliver strong returns to shareholders as we capitalize  
18 on the exciting opportunities ahead in 2022 and beyond.

19 46. On August 3, 2022, TriplePoint issued a press release announcing the Company’s  
20 Q2 2022 results. The press release quoted Defendants Labe and Srivastava, stating, in relevant  
21 part:

22 “Despite the volatile markets, the demand for our debt financing remains strong,”  
23 said [Defendant] Labe[.] “With our focus on high quality venture growth stage  
24 companies, we achieved several key objectives during the quarter including  
25 growing our portfolio to record levels, over-earning our dividend, and generating  
26 strong portfolio yields.”

27 “Our portfolio companies further demonstrated their strong outlook during the first  
28 half of 2022, as they continued to complete capital raises, with \$1.7 billion raised  
in the first half of 2022,” said [Defendant] Srivastava[.] “In this market, we  
continue to concentrate on maintaining the quality of our investment portfolio and  
deploying our capital in a disciplined manner to create long-term shareholder  
value.”

47. That same day, TriplePoint hosted an earnings call with investors and analysts to  
discuss the Company’s Q2 2022 results (the “Q2 2022 Earnings Call”). During the scripted  
portion of the Q2 2022 Earnings Call, Defendant Labe stated, in relevant part:

1 During the second quarter, we achieved several key objectives, including growing  
2 our portfolio to record levels, over earning the dividend and generating strong  
3 portfolio yields. During the past few quarters, we have gradually been bringing up  
4 our portfolio leverage and in the second quarter, we are pleased to have hit our  
5 target leverage range. We exceeded our funding goals last quarter, funding more  
6 than \$157 million of debt investments, and have maintained strong momentum  
7 heading here into the second half of 2022.

8 48. On November 2, 2022, TriplePoint issued a press release announcing the  
9 Company's Q3 2022 results. The press release quoted Defendants Labe and Srivastava, stating,  
10 in relevant part:

11 "We are pleased with our strong finish for the year as we executed on our 2021  
12 playbook," said [Defendant] Labe[.] "We capitalized on the thriving venture capital  
13 market in 2021 to continue to grow our investment portfolio in a disciplined  
14 manner, culminating in a fourth quarter in which we over-earned our dividend and  
15 achieved our second highest level of quarterly fundings since our IPO."

16 "Our performance in 2021 demonstrated the value potential associated with our  
17 warrant and equity investments and the overall quality of our portfolio, resulting in  
18 a substantial increase in net asset value," said [Defendant] Srivastava[.] "With the  
19 completion this week of our third investment grade debt offering to date we are  
20 well positioned to continue to invest in leading venture growth stage companies."

21 49. That same day, TriplePoint hosted an earnings call with investors and analysts to  
22 discuss the Company's Q3 2022 results (the "Q3 2022 Earnings Call"). During the scripted  
23 portion of the Q3 2022 Earnings Call, Defendant Labe stated, in relevant part:

24 During the quarter, we further capitalized on the strong demand for our financing  
25 while continuing to grow the portfolio in a disciplined manner. We're pleased to  
26 have efficiently invested the capital from our recent accretive \$55 million equity  
27 offering. This helped us grow our portfolio to a record fair value of almost a billion,  
28 generate net investment income, or NII, of \$0.51 per share and achieve a weighted  
average portfolio yield of 13.8%.

For the third quarter, our NII again exceeded our quarterly distribution, and we're  
proud to announce that our Board made the decision to increase the regular  
quarterly distribution to \$0.37 per share. Given our sizable portfolio, coupled with  
favorable fixed rate financing and increasing portfolio yields, we believe we remain  
in a strong position to both generate NII that covers our new \$0.37 per share  
dividend and to further increase yield to return to shareholders over time, as we've  
done today.

1           50.     On March 1, 2023, TriplePoint issued a press release announcing the Company’s  
2 Q4 and full year 2022 results. The press release quoted Defendants and Srivastava, stating, in  
3 relevant part:

4                   “During 2022, we remained selective and grew the portfolio to record levels,  
5 achieving both record total investment income and net investment income while  
6 over-earning our distribution,” said [Defendant] Labe[.] “Based on our portfolio’s  
7 earning power, our board increased our quarterly distribution 8% for the first  
8 quarter, representing our second consecutive quarterly increase and a total increase  
9 of 11% since third quarter 2022.”

10                   “We believe that the steps we have taken to further enhance our portfolio and  
11 funding diversification position us well to create sustainable shareholder value,”  
12 said [Defendant] Srivastava[.] “Our focus remains on taking advantage of  
13 compelling growth-stage venture lending opportunities to expand and further  
14 diversify the portfolio in a prudent manner and increase shareholder returns over  
15 time.”

16           51.     That same day, TriplePoint filed an Annual Report on Form 10-K with the SEC,  
17 reporting the Company’s financial and operating results for the year ended December 31, 2022  
18 (the “2022 10-K”). The 2022 10-K contained substantively similar discussions of the Company’s  
19 business overview and investment strategy as discussed, *supra*, in ¶¶ 20-21.

20           52.     Appended to the 2022 10-K as exhibits were signed certifications pursuant to  
21 SOX by Defendants Labe and Mathieu, attesting that “[t]he information contained in the [2022  
22 10-K] fairly presents, in all material respects, the financial condition and results of operations of  
23 [TriplePoint].”

24           53.     Also on March 1, 2023, TriplePoint hosted an earnings call with investors and  
25 analysts to discuss the Company’s Q4 2022 results (the “Q4 2022 Earnings Call”). During the  
26 scripted portion of the Q4 2022 Earnings Call, Defendant Labe stated, in relevant part:

27                   During 2022, we achieved several key objectives while continuing to take our  
28 selective approach given market volatility. We grew the portfolio to record levels,  
generated both record investment income and record NII and over-earned our  
distribution.

1 Other accomplishments included further diversifying the portfolio, maintaining our  
2 target leverage ratio and growing our core portfolio yield, which has now expanded  
3 over the past seven consecutive quarters. During the year, we also raised accretive  
4 equity capital and increased overall leverage as well as extended our credit lines to  
5 strengthen our balance sheet.

6 \*\*\*

7 Despite current market volatility, it was notable that 56% of our portfolio  
8 companies that are active credits raised capital last year, representing almost \$2.5  
9 billion raised to 36 companies, of which more than \$300 million came in the last  
10 quarter alone. At quarter's end, our investment portfolio reached nearly \$1 billion,  
11 a record increase for the full year. In addition to those companies where we have  
12 active debt outstanding, our diverse portfolio also spans across a number of  
13 companies where we have warrants and equity investments even when there is no  
14 outstanding debt.

15 54. The statements referenced in ¶¶ 19-53 were materially false and misleading  
16 because Defendants made false and/or misleading statements, as well as failed to disclose  
17 material adverse facts about the Company's business, operations, and prospects. Specifically,  
18 Defendants made false and/or misleading statements and/or failed to disclose that: (i) TriplePoint  
19 had overstated the strength of its various portfolio companies and loan book, as well as the  
20 viability of its overall investment strategy; (ii) the foregoing, once revealed, was likely to have a  
21 material negative impact on the Company's financial position and/or prospects; and (iii) as a  
22 result, the Company's public statements were materially false and misleading at all relevant  
23 times.

### 24 **The Truth Emerges**

25 55. On May 2, 2023, the Bear Cave released the Bear Cave Report, which stated, in  
26 relevant part:

27 TriplePoint [. . .] describes itself as “a leading global financing provider devoted to  
28 serving venture capital-backed companies.” In reality, TriplePoint is encumbered  
by high fees, weak management, and a weaker loan book saddled by portfolio  
company bankruptcies and upside-down startups. The Bear Cave believes  
TriplePoint's equity may be severely impaired, if it has any value at all.

1 For a sense of TriplePoint’s troubles, investors need to look no further than its  
2 publicly disclosed net asset value, which has declined from \$14.01 per share in Q4  
3 2021 to \$13.84 in Q1 2022, \$13.01 in Q2 2022, \$12.69 in Q3 2022, and \$11.88 in  
4 Q4 2022. Shares closed yesterday at \$11.92, a slight premium to net asset value,  
5 and the company reports Q1 2023 results tomorrow after the close.

6 TriplePoint charges investors 1.75% of the fund’s “average adjusted gross assets”  
7 and 20% of net investment income above an 8% hurdle rate.

8 ***The Bear Cave believes TriplePoint’s net asset value decline will accelerate in  
9 the coming quarters as TriplePoint may need to take significant write-downs in  
10 its loan book.***

11 For example, last quarter TriplePoint took a full ~\$34 million write-down on Medly  
12 Health, an online pharmacy that declared bankruptcy in December 2022.  
13 TriplePoint disclosed, in part,

14 “Medly sought bankruptcy protection due to adverse developments and  
15 liquidity issues precipitated by the loss of anticipated financing and the  
16 discovery of certain operational, financial and accounting irregularities and  
17 improper activities conducted by former employees, including the original  
18 founders.”

19 In Q3 2022, TriplePoint carried its \$34.2 million in Medly Health loans at \$31.9  
20 million.

21 History seems to be repeating.

22 Two weeks ago, another TriplePoint borrower, telehealth provider The Pill Club,  
23 declared bankruptcy. The Pill Club’s bankruptcy filing follows the company’s \$18  
24 million settlement in February with the California Attorney General over alleged  
25 insurance fraud. In its 10-K filed March 2023, TriplePoint carries its \$20 million  
26 loan to The Pill Club at \$19.9 million.

27 ***This is no isolated incident. In fact, The Bear Cave has identified ten portfolio  
28 companies that appear to be in substantial distress with TriplePoint loans totaling  
over \$170 million.***

(Emphases added.)

56. On this news, TriplePoint’s stock price fell \$1.19 per share, or 9.98%, over the  
following two trading sessions, to close at \$10.73 per share on May 3, 2023.

1           57. As a result of Defendants’ wrongful acts and omissions, and the precipitous  
2 decline in the market value of the Company’s securities, Plaintiff and other Class members have  
3 suffered significant losses and damages.

4                                   **PLAINTIFF’S CLASS ACTION ALLEGATIONS**

5           58. Plaintiff brings this action as a class action pursuant to Federal Rule of Civil  
6 Procedure 23(a) and (b)(3) on behalf of a Class, consisting of all those who purchased or  
7 otherwise acquired TriplePoint securities during the Class Period (the “Class”); and were  
8 damaged upon the revelation of the alleged corrective disclosures. Excluded from the Class are  
9 Defendants herein, the officers and directors of the Company, at all relevant times, members of  
10 their immediate families and their legal representatives, heirs, successors or assigns and any  
11 entity in which Defendants have or had a controlling interest.

12           59. The members of the Class are so numerous that joinder of all members is  
13 impracticable. Throughout the Class Period, TriplePoint securities were actively traded on the  
14 NYSE. While the exact number of Class members is unknown to Plaintiff at this time and can  
15 be ascertained only through appropriate discovery, Plaintiff believes that there are hundreds or  
16 thousands of members in the proposed Class. Record owners and other members of the Class  
17 may be identified from records maintained by TriplePoint or its transfer agent and may be  
18 notified of the pendency of this action by mail, using the form of notice similar to that customarily  
19 used in securities class actions.

20           60. Plaintiff’s claims are typical of the claims of the members of the Class as all  
21 members of the Class are similarly affected by Defendants’ wrongful conduct in violation of  
22 federal law that is complained of herein.

1           61. Plaintiff will fairly and adequately protect the interests of the members of the  
2 Class and has retained counsel competent and experienced in class and securities litigation.

3 Plaintiff has no interests antagonistic to or in conflict with those of the Class.

4           62. Common questions of law and fact exist as to all members of the Class and  
5 predominate over any questions solely affecting individual members of the Class. Among the  
6 questions of law and fact common to the Class are:  
7

- 8           • whether the federal securities laws were violated by Defendants' acts as alleged  
9 herein;
- 10           • whether statements made by Defendants to the investing public during the Class  
11 Period misrepresented material facts about the business, operations and  
12 prospects of TriplePoint;
- 13           • whether the Individual Defendants caused TriplePoint to issue false and  
14 misleading financial statements during the Class Period;
- 15           • whether Defendants acted knowingly or recklessly in issuing false and  
16 misleading financial statements;
- 17           • whether the prices of TriplePoint securities during the Class Period were  
18 artificially inflated because of the Defendants' conduct complained of herein;  
19 and
- 20           • whether the members of the Class have sustained damages, and, if so, what is  
21 the proper measure of damages.

22           63. A class action is superior to all other available methods for the fair and efficient  
23 adjudication of this controversy since joinder of all members is impracticable. Furthermore, as  
24 the damages suffered by individual Class members may be relatively small, the expense and  
25 burden of individual litigation make it impossible for members of the Class to individually  
26 redress the wrongs done to them. There will be no difficulty in the management of this action as  
27 a class action.

28           64. Plaintiff will rely, in part, upon the presumption of reliance established by the  
fraud-on-the-market doctrine in that:

- 1 • Defendants made public misrepresentations or failed to disclose material facts during the Class Period;
- 2
- 3 • the omissions and misrepresentations were material;
- 4 • TriplePoint securities are traded in an efficient market;
- 5 • the Company's shares were liquid and traded with moderate to heavy volume during the Class Period;
- 6
- 7 • the Company traded on the NYSE and was covered by multiple analysts;
- 8 • the misrepresentations and omissions alleged would tend to induce a reasonable investor to misjudge the value of the Company's securities; and
- 9
- 10 • Plaintiff and members of the Class purchased, acquired and/or sold TriplePoint securities between the time the Defendants failed to disclose or misrepresented material facts and the time the true facts were disclosed, without knowledge of the omitted or misrepresented facts.
- 11
- 12

13 65. Based upon the foregoing, Plaintiff and the members of the Class are entitled to a  
14 presumption of reliance upon the integrity of the market.

15 66. Alternatively, Plaintiff and the members of the Class are entitled to the  
16 presumption of reliance established by the Supreme Court in *Affiliated Ute Citizens of the State*  
17 *of Utah v. United States*, 406 U.S. 128, 92 S. Ct. 2430 (1972), as Defendants omitted material  
18 information in their Class Period statements in violation of a duty to disclose such information,  
19 as detailed above.

20  
21 **COUNT I**

22 **(Violations of Section 10(b) of the Exchange Act and Rule 10b-5 Promulgated Thereunder**  
23 **Against All Defendants)**

24 67. Plaintiff repeats and re-alleges each and every allegation contained above as if  
25 fully set forth herein.

26 68. This Count is asserted against Defendants and is based upon Section 10(b) of the  
27 Exchange Act, 15 U.S.C. § 78j(b), and Rule 10b-5 promulgated thereunder by the SEC.

1           69.     During the Class Period, Defendants engaged in a plan, scheme, conspiracy and  
2 course of conduct, pursuant to which they knowingly or recklessly engaged in acts, transactions,  
3 practices and courses of business which operated as a fraud and deceit upon Plaintiff and the  
4 other members of the Class; made various untrue statements of material facts and omitted to state  
5 material facts necessary in order to make the statements made, in light of the circumstances under  
6 which they were made, not misleading; and employed devices, schemes and artifices to defraud  
7 in connection with the purchase and sale of securities. Such scheme was intended to, and,  
8 throughout the Class Period, did: (i) deceive the investing public, including Plaintiff and other  
9 Class members, as alleged herein; (ii) artificially inflate and maintain the market price of  
10 TriplePoint securities; and (iii) cause Plaintiff and other members of the Class to purchase or  
11 otherwise acquire TriplePoint securities and options at artificially inflated prices. In furtherance  
12 of this unlawful scheme, plan and course of conduct, Defendants, and each of them, took the  
13 actions set forth herein.  
14

15  
16           70.     Pursuant to the above plan, scheme, conspiracy and course of conduct, each of the  
17 Defendants participated directly or indirectly in the preparation and/or issuance of the quarterly  
18 and annual reports, SEC filings, press releases and other statements and documents described  
19 above, including statements made to securities analysts and the media that were designed to  
20 influence the market for TriplePoint securities. Such reports, filings, releases and statements  
21 were materially false and misleading in that they failed to disclose material adverse information  
22 and misrepresented the truth about TriplePoint's finances and business prospects.  
23

24           71.     By virtue of their positions at TriplePoint, Defendants had actual knowledge of  
25 the materially false and misleading statements and material omissions alleged herein and  
26 intended thereby to deceive Plaintiff and the other members of the Class, or, in the alternative,  
27 Defendants acted with reckless disregard for the truth in that they failed or refused to ascertain  
28

1 and disclose such facts as would reveal the materially false and misleading nature of the  
2 statements made, although such facts were readily available to Defendants. Said acts and  
3 omissions of Defendants were committed willfully or with reckless disregard for the truth. In  
4 addition, each Defendant knew or recklessly disregarded that material facts were being  
5 misrepresented or omitted as described above.

6  
7 72. Information showing that Defendants acted knowingly or with reckless disregard  
8 for the truth is peculiarly within Defendants' knowledge and control. As the senior managers  
9 and/or directors of TriplePoint, the Individual Defendants had knowledge of the details of  
10 TriplePoint's internal affairs.

11  
12 73. The Individual Defendants are liable both directly and indirectly for the wrongs  
13 complained of herein. Because of their positions of control and authority, the Individual  
14 Defendants were able to and did, directly or indirectly, control the content of the statements of  
15 TriplePoint. As officers and/or directors of a publicly-held company, the Individual Defendants  
16 had a duty to disseminate timely, accurate, and truthful information with respect to TriplePoint's  
17 businesses, operations, future financial condition and future prospects. As a result of the  
18 dissemination of the aforementioned false and misleading reports, releases and public statements,  
19 the market price of TriplePoint securities was artificially inflated throughout the Class Period.  
20 In ignorance of the adverse facts concerning TriplePoint's business and financial condition which  
21 were concealed by Defendants, Plaintiff and the other members of the Class purchased or  
22 otherwise acquired TriplePoint securities at artificially inflated prices and relied upon the price  
23 of the securities, the integrity of the market for the securities and/or upon statements disseminated  
24 by Defendants, and were damaged thereby.

25  
26 74. During the Class Period, TriplePoint securities were traded on an active and  
27 efficient market. Plaintiff and the other members of the Class, relying on the materially false and  
28

1 misleading statements described herein, which the Defendants made, issued or caused to be  
2 disseminated, or relying upon the integrity of the market, purchased or otherwise acquired shares  
3 of TriplePoint securities at prices artificially inflated by Defendants' wrongful conduct. Had  
4 Plaintiff and the other members of the Class known the truth, they would not have purchased or  
5 otherwise acquired said securities, or would not have purchased or otherwise acquired them at  
6 the inflated prices that were paid. At the time of the purchases and/or acquisitions by Plaintiff  
7 and the Class, the true value of TriplePoint securities was substantially lower than the prices paid  
8 by Plaintiff and the other members of the Class. The market price of TriplePoint securities  
9 declined sharply upon public disclosure of the facts alleged herein to the injury of Plaintiff and  
10 Class members.

11  
12 75. By reason of the conduct alleged herein, Defendants knowingly or recklessly,  
13 directly or indirectly, have violated Section 10(b) of the Exchange Act and Rule 10b-5  
14 promulgated thereunder.  
15

16 76. As a direct and proximate result of Defendants' wrongful conduct, Plaintiff and  
17 the other members of the Class suffered damages in connection with their respective purchases,  
18 acquisitions and sales of the Company's securities during the Class Period, upon the disclosure  
19 that the Company had been disseminating misrepresented financial statements to the investing  
20 public.  
21

22 **COUNT II**

23 **(Violations of Section 20(a) of the Exchange Act Against the Individual Defendants)**

24 77. Plaintiff repeats and re-alleges each and every allegation contained in the  
25 foregoing paragraphs as if fully set forth herein.

26 78. During the Class Period, the Individual Defendants participated in the operation  
27 and management of TriplePoint, and conducted and participated, directly and indirectly, in the  
28

1 conduct of TriplePoint’s business affairs. Because of their senior positions, they knew the  
2 adverse non-public information about TriplePoint’s misstatement of income and expenses and  
3 false financial statements.

4 79. As officers and/or directors of a publicly owned company, the Individual  
5 Defendants had a duty to disseminate accurate and truthful information with respect to  
6 TriplePoint’s financial condition and results of operations, and to correct promptly any public  
7 statements issued by TriplePoint which had become materially false or misleading.  
8

9 80. Because of their positions of control and authority as senior officers, the  
10 Individual Defendants were able to, and did, control the contents of the various reports, press  
11 releases and public filings which TriplePoint disseminated in the marketplace during the Class  
12 Period concerning TriplePoint’s results of operations. Throughout the Class Period, the  
13 Individual Defendants exercised their power and authority to cause TriplePoint to engage in the  
14 wrongful acts complained of herein. The Individual Defendants, therefore, were “controlling  
15 persons” of TriplePoint within the meaning of Section 20(a) of the Exchange Act. In this  
16 capacity, they participated in the unlawful conduct alleged which artificially inflated the market  
17 price of TriplePoint securities.  
18

19 81. Each of the Individual Defendants, therefore, acted as a controlling person of  
20 TriplePoint. By reason of their senior management positions and/or being directors of  
21 TriplePoint, each of the Individual Defendants had the power to direct the actions of, and  
22 exercised the same to cause, TriplePoint to engage in the unlawful acts and conduct complained  
23 of herein. Each of the Individual Defendants exercised control over the general operations of  
24 TriplePoint and possessed the power to control the specific activities which comprise the primary  
25 violations about which Plaintiff and the other members of the Class complain.  
26  
27  
28

1           82.     By reason of the above conduct, the Individual Defendants are liable pursuant to  
2 Section 20(a) of the Exchange Act for the violations committed by TriplePoint.

3   **PRAYER FOR RELIEF**

4           **WHEREFORE**, Plaintiff demands judgment against Defendants as follows:

5           A.     Determining that the instant action may be maintained as a class action under Rule  
6 23 of the Federal Rules of Civil Procedure, and certifying Plaintiff as the Class representative;

7           B.     Requiring Defendants to pay damages sustained by Plaintiff and the Class by  
8 reason of the acts and transactions alleged herein;

9           C.     Awarding Plaintiff and the other members of the Class prejudgment and post-  
10 judgment interest, as well as their reasonable attorneys' fees, expert fees and other costs; and

11           D.     Awarding such other and further relief as this Court may deem just and proper.  
12

13   **DEMAND FOR TRIAL BY JURY**

14           Plaintiff hereby demands a trial by jury.
